

SAT Subject Tests Percentile Ranks

2017 Graduating Class

This table allows you to compare a student's scores with the performance of other test takers. The percentile rank shows students what percentage of college-bound seniors earned a lower score than they did. A student with a Literature score of 600, for example, can see that 38% of test takers scored lower.

Please note that the population of test takers differs from test to test and from the larger group that takes the SAT®. For this reason, scores and percentiles of different SAT Subject Tests™ cannot be compared.
